July 1**

**2019**

**wwfor.org**

## 61<sup>st</sup> Annual Regional Conference at Seabeck

*Western Washington Fellowship of Reconciliation and East Point Peace Academy*

Are pleased to present

## **Fierce Vulnerability**

*Direct Action that Heals and Transforms*

### \*\*\*\*What is Fierce Vulnerability?\*\*\*\*

- How do we stop injustice in its tracks while acknowledging the interconnectedness of all people?
- How do we protect ourselves while nurturing a relationship with our broken-heartedness?
- How do we build a movement that can shut down a highway while creating a culture of opening up?
- How do we build a movement with the militancy to occupy a government building and the sensitivity to see it as an act of healing?
- How can we come to experience vulnerability as a strength, not a weakness?

Our world is in crisis. Our social systems are being torn apart, our economic systems have created historic levels of wealth disparity, and earth's life support systems are on the brink of collapse. The need for a powerful direct action movement that nurtures a radical, fundamental transformation has never been greater.

**Four days in a beautiful setting - learning, growing and practicing in community.
